

Defense Contract Management Command
PLAS Program Management Center

PLAS - O - GRAM <97-10>

PLAS Mongers,

The conversion of the DCARRS database to include updated DCN and Function Codes has been completed. This was the final step necessary before importing the linked codes into PLAS.

The PLAS Program Center will be loading the DCARRS DCNs this afternoon, which should make the DCN/Function Code entries usable upon receipt. Notify your users to expect to see the DCNs in PLAS beginning later today or tomorrow morning.

We have been advised that all DCNs previously closed in DCARRS will not transfer to PLAS. If your PLASsers need to report against a closed DCN, the local Activity Reimbursable Monitor (ARM) must reopen the DCN. Reopened DCNs will appear in PLAS the day following re-establishment.

Questions or comments may be directed to the PLAS Program Center at 1-888-PLASINF or e-mail PLASHELP.
